

MSMA and MSP Encourage all Eligible Missourians to get the COVID-19 Vaccine

MISSOURI – The Missouri State Medical Association (MSMA) and Missouri Society of Pathologists (MSP) stand with Missouri physicians in promoting and encouraging COVID-19 vaccination. Anyone age 12 and up is eligible to receive the vaccine. The COVID-19 vaccines are a safe, effective, and free way to help protect you and your loved ones from this pandemic. Unless a large majority of individuals in our communities are vaccinated, the virus may continue to mutate and become more infectious. With the Delta variant spreading more easily and quickly, getting vaccinated is more urgent than ever. Over 300 million doses of the COVID-19 vaccine have been safely administered, with the vast majority of patients experiencing very minor, if any, side effects. It is time for everyone to do their part in helping stop the pandemic.

If you have concerns about the safety of the COVID-19 vaccine, please talk with your doctor or another trusted healthcare professional. COVID-19 vaccines don't just protect you, they also protect your friends, family, and the people around you. Schedule your vaccine today at [mostopscovid.com](https://www.mostopscovid.com).
