Join the New York State Society of Pathologists Today!

The New York State Society of Pathologists is a growing organization and we invite you to [become a part of our community](#). We are looking to expand our membership across the New York State to include all pathologists in the state.

The New York State Society of Pathologists is the only advocacy organization for Pathologists in New York. We work in coordination with the College of American Pathologists to represent all New York pathologists and ensure that the voices of pathologists are heard in Albany.

Benefits of membership in the New York State Society of Pathologists include:

- Discounted registration to the New York State Society of Pathologists Annual Meeting
- Lending your voice to the only advocacy focused organization for Pathologists in New York State
- Excellent scientific programs that provide updates on current issues and developments in pathology
- Networking opportunities with New York State Society of Pathologists members

The New York State Society of Pathologists truly appreciates the participation of its members, and we strongly encourage you to take advantage of membership in our society! The more pathologists we have involved in the Society, the greater an impact we can make to issues affecting pathologists at the state level.

You can join the New York State Society of Pathologists online at our website (www.pathologyconnection.com/nyssp). Or you can join directly through our [membership application](#).

We look forward to you being a part of the New York State Society of Pathologists, and to welcoming you into our community of professionals. Please join today!

Sincerely,

Humayun Islam, MD, PhD, FCAP

President, New York State Society of Pathologists
